

## IP-3101HS IP-3101 2 Line Radio Console w/Handset

### IP-3101 Series

The IP-3101HS IP Console communicates directly with our IP-224 Radio Gateway to deliver a dispatch solution that is simple to install and operate. You can mount the units on a desktop or wall with an optional mounting kit, and power them through PoE (Power over Ethernet) or an optional external power supply.

Each unit features a 3.5" touchscreen, handset and panel microphone, built-in speaker, VU meter, and six defined function buttons.

The touchscreen displays key line information, including the selected line name, calling unit ANI, and the channel or frequency name.
