

## IP-3101 IP Console 2 Line

### IP-3101 Series

- ▶ Two lines of IP-224 radio control
- ▶ Main PTT and Line Select buttons
- ▶ Single speaker with volume control
- ▶ Frequency change with Scan function
- ▶ Remote programming and firmware update

The IP-3101 IP Console communicates directly with our IP-224 Radio Gateway to deliver a dispatch solution that is simple to install and operate. You can mount the units on a desktop or wall with an optional mounting kit, and power them through PoE (Power over Ethernet) or an optional external power supply.

Each unit features a 3.5" touchscreen, panel microphone, built-in speaker, VU meter, and six defined function buttons.

The touchscreen displays key line information, including the selected line name, calling unit ANI, and the channel or frequency name.
